That is \$200 an hour without a tip!! I'm sorry I just can not get that price thru my head.. In NJ its \$60 an hour for a regular out on a town It cost me \$700 for pick up of 8 people, make another stop, go to a Football game, wait for 5 hrs, then pick everyone up, take them back to 1st stop & then 2nd stop & it was \$700 with tolls & 20% tip included, also weekend pick up was extra \$\$\$\$; & late drop off.. The rental car we're getting will cost us \$700 for 4 hours It's very easy to look at a price and claim that it is entirely too high, but you don't know where the person lives OR what type of bells and whistles the vehicle will have.. Someone living in the county hills of southern WV will pay a hell of a lot less than someone living in NYC.. Are these tips appropriate? Cab driver 10%, \$2-\$5 minimum Chauffeur 10-15% Gas station attendant.
